INTRODUCING A NEW ERA OF COLOR – THE CANON COLOR imageRUNNER C4080 SERIES

Unleash power, speed, flexibility, and connectivity in your office

With robust functionality, advanced print engine technology, superior paper-handling, and professional finishing options, the Color imageRUNNER C4080 Series models are the ideal multifunction devices for your office.

The Color imageRUNNER C4080 Series delivers output at speeds of up to 40 pages per minute (letter) in monochrome and up to 36 ppm (letter) in brilliant color. Fast print speeds and warm-up times are achieved through Canon's new Twin-Belt Fusing Technology. And at true 1200 dpi, every word will appear with absolute clarity with the highly precise four-beam laser scanner.

A fast and reliable 100-sheet Duplexing Automatic Document Feeder (DADF) enables you to efficiently scan/copy high-volume documents at up to 70 impressions per minute (ipm) at 300 dpi in black and white and color.

Two versions of the Color imageRUNNER C4080 Series are available—an "i" model and a "Base" model. The "i" model, designed for general office environments, is bundled with features providing out-of-the-box business productivity. The "Base" model is highly customizable and offers a selection of options to best fit demanding color environments.

The Color imageRUNNER C4080 Series provides memory capacity of up to 1.5GB, an 80GB hard drive, and Canon's innovative MEAP® (Multifunctional Embedded Application Platform) technology for customized workflows. With high-capacity finishing options, professional output is available for any project.

When it comes to connectivity, the Color imageRUNNER C4080 Series enables efficient document distribution with Canon's Color Universal Send technology. Standard on all models, it provides comprehensive dissemination of information simultaneously to multiple locations across the hall or around the globe.

HIGH QUALITY AND PRODUCTIVITY

## Uncompromising business performance

NEW-GENERATION IMAGE PROCESSING

The Color imageRUNNER C4080 Series is powered by Canon's new evolutionary imageCHIP system architecture. This not only enables simultaneous copying, printing, scanning, sending, and faxing, but it will change the way you think about using color in your office.

DIGITAL DYNAMICS

Adding digital data to copies and prints is easy and powerful. Create ad hoc watermarks, select preset stamps, add page and copy set numbering, and/or date stamping to any output with control over size, position, colors, and density. You can also embed secure watermarks that appear when copies are made to help prevent security leaks of confidential information.

COMPLEX JOBS MADE SIMPLE

The Color imageRUNNER C4080 Series makes the production of complicated documents manageable. Combine different sets of documents into one with Job Block Combination. Each set can be configured to run with unique settings, such as paper type, finishing, color, and more, then reproduced or stored as a new document in a Mail Box.

BRILLIANT BUSINESS COLOR

For general office environments, the Color imageRUNNER C4080 Series efficiently tackles print tasks for Microsoft® Office applications. It supports Canon's UFR II (Ultra Fast Rendering) and PCL, as well as an option for PostScript 3™ emulation.

FASTER COPYING

Copy operations are greatly simplified through the choice of two user interfaces. The standard copy display simplifies operations for novice users, while an Express Copy menu provides advanced users quick access to various copying modes on a single screen.

THE PERFECT FINISHING TOUCHES

The Color imageRUNNER C4080 Series offers professional finishing options that collate, staple, hole-punch, or saddle-stitch to create impressive documents efficiently. And with Automatic Creep Correction, each page in your large booklets will be perfectly positioned.

Universal Send

SUPERIOR COMMUNICATION

Enhance your digital world with Color Universal Send

With Canon's proprietary Universal Send technology, the Color imageRUNNER C4080 Series enables you to distribute scanned documents to multiple network destinations—such as e-mail and Internet fax addresses, local Mail Boxes, fax, network folders, and document management systems—in one simple operation. Quickly and easily send documents to user addresses in a local Address Book, look up users from multiple LDAP servers on your network, or manually enter a destination. When Single Sign-On (SSO) or Simple Device Log-in (SDL) authentication modes are used, a new timesaving feature enables you to send documents to yourself in a single click.

Color Universal Send offers powerful options to master creation, distribution, and archiving of your documents. Universal Send PDF Advanced Features (standard on the "i" model) provide additional functionality such as PDF High Compression, Trace & Smooth PDF, and Searchable PDF modes.

PDF High Compression Mode

PDF HIGH COMPRESSION TECHNOLOGY

To reduce network bandwidth requirements when sending color documents, Canon's proprietary PDF High Compression Mode can significantly reduce the size of PDF files. And with Canon's exclusive Trace & Smooth PDF feature, text in PDF files can be converted to outlines for sharper edges and increased readability. The outline data can also be manipulated in Adobe Illustrator® to create elements for other documents.

Send Main Menu

CREATING SEARCHABLE PDF DOCUMENTS

After scanning for PDF creation, the text is then embedded within the file for extraction or keyword searches with the Searchable PDF feature. This allows you to easily scan and convert scanned documents into your electronic workflow.
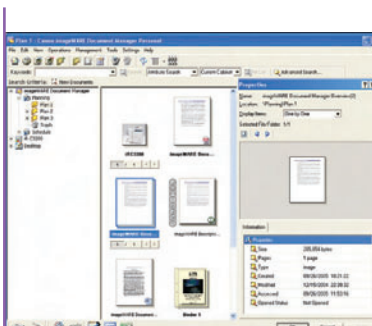

HIGH-VOLUME FAX CAPABILITY

The Color imageRUNNER C4080 Series supports the option to add a single- or multi-line Super G3 fax module to further extend the capabilities of Color Universal Send. Incoming faxes can also be automatically routed to other devices, destinations, or users with the Job Forwarding feature for superior workflow management.

ADVANCED WORKGROUP COLLABORATION

The Color imageRUNNER C4080 Series includes internal Mail Boxes for document storage and print-on-demand applications. Documents can be combined and printed as a single job or sent to multiple destinations in a variety of formats. For files that are too large for e-mail or require a large distribution list, the URL Send feature can e-mail a link to notify recipients that they can remotely preview via PC and, if necessary, print from the device.

DESKTOP INTEGRATION

The Color imageRUNNER C4080 Series is designed to work seamlessly with Canon's imageWARE Document Manager Personal Version 4 as a total end-to-end document solution. You can capture, archive, retrieve, and manipulate documents within the imageRUNNER devices' Mail Boxes right from your desktop computer, seamlessly integrating your workspace with the device.

imageWARE Document Manager Personal Version 4

INTERNET-READY

Maximize the power of the Web

The Color imageRUNNER C4080 Series provides more ways to share information with the world beyond your office than ever before.

WEB BROWSING AND PRINTING

With the industry's first Web Access Software option, you can browse the Web or corporate intranets directly from the device's color touch-panel. The Web Access function enables you to print Web pages or PDF files from the Internet or your network, even when you don't have access to a computer.*

WEB-BASED DOCUMENT COLLABORATION

Color Universal Send supports the Web-based Distributed Authoring and Versioning (WebDAV) protocol, enabling you to securely send documents to a shared storage service over the Internet. Collaborate on documents with others, whether they are in the office, on the road, or at home for increased productivity.

Web Access Software

* When configured on the "Base" model, requires UFR II/PCL Printer Kit-N1 if printing Web pages; requires PS Printer Kit-N1 on "Base" and "i" models if printing PDF files.
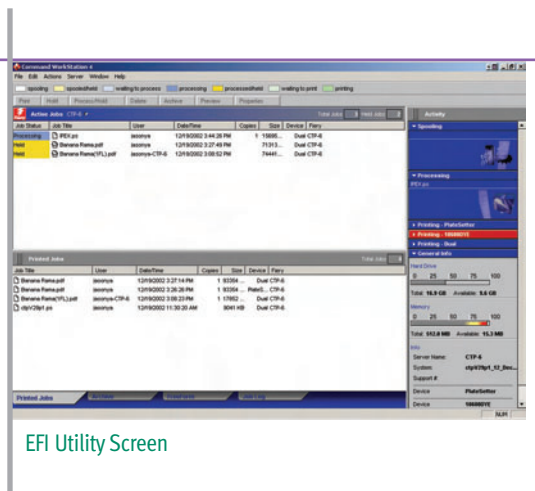

POWERFUL IMAGING

Flexible color productivity for your office

Canon offers flexible print controller options developed for the Color imageRUNNER C4080 "Base" model. The ColorPASS-GX100 and imagePASS-H1 controllers increase productivity and color quality for corporate and professional color environments.
imagePASS-H1 CONTROLLER

The imagePASS-H1 is a high-performance embedded controller designed to handle color-intensive multi-user environments. Featuring a dedicated Intel® Celeron® M 1.5GHz processor, the imagePASS-H1 provides improved color matching, genuine Adobe Postscript 3 support, and PCL 5c emulation.

imagePASS-H1

EFI Utility Screen

ColorPASS-GX100 CONTROLLER

The ColorPASS-GX100 is a powerful external server which caters to graphic-intensive users and production environments. Driven by an Intel Pentium® 4 3.2GHz processor, the ColorPASS-GX100 controller supports demanding color image and high-volume processing.

Single Sign-On Log-In Screen

Control Panel

User-Friendly

Simplicity for users

For users, the Color imageRUNNER C4080 Series facilitates operations with its easy-to-read full-color touch panel, interactive help menus, insightful documentation and tutorials, and remote operation capabilities. Streamlined administration is achieved through powerful features for user access and privileges, and device management.

SUPPORT TOOLS FOR OPERATORS

Whether you're a beginner or an advanced user, the Color imageRUNNER C4080 Series is easy to navigate. An Easy Operation Guide provides step-by-step instructions on how to operate the device's main functions. And the [Help] hard key on the device provides instructions and explanations for operation. User tutorials in Macromedia® Flash® format are also available and can be distributed through your network or corporate intranet for smooth deployment.

REMOTE UI (USER INTERFACE)

The Color imageRUNNER C4080 Series can be accessed through a Web browser from any computer on the network. The Remote UI utility provides the ability to check the status of the device, track the progress of current jobs, monitor paper and toner levels, administer the Mail Box, and edit the Address Book.

## ...and for administrators

FLEXIBLE USER ADMINISTRATION

Administrators have a choice of methods to control access and privileges to the Color imageRUNNER C4080 Series devices. Authentication schemes include Single Sign-On (SSO) using network accounts, Simple Device Log-In (SDL), and Department ID Mode with optional Control Card/Card Reader system.
COMPREHENSIVE DEVICE MANAGEMENT

Canon's imageWARE Enterprise Management Console (EMC) is a Web-based utility that facilitates centralized management of networked devices. Built upon an extensible framework, it enables remote management of device settings, discovery of new devices using automated tasks, and device error notifications via e-mail. Administrators can also easily replicate settings and Address Books across multiple devices through the Device Information Delivery Function (DIDF), as well as push-print drivers to PC-based desktop computers for rapid deployment.

SECURITY AND ACCESSIBILITY

Encrypted Secured Print

DEVICE AND DATA SECURITY

The Color imageRUNNER C4080 Series includes features to help you guard against unauthorized access to the device and its data. In addition to user-level authentication, it can also restrict access by network port or IP/MAC address. The Encrypted Secured Print feature can encrypt your documents before they are sent over the network and decrypt and print only after the correct password is entered on the device. With Canon's imageRUNNER Security option, data on the device's drive can be secured with 168-bit encryption technology and set to automatically overwrite traces of previously stored data.

SECURE DIGITAL DOCUMENTS

The Universal Send PDF Security Feature Set provides advanced options to prevent impersonation, unauthorized alteration, or interception of your documents. With Digital Device Signature mode, recipients can be assured of the originating device of documents. You can also protect the contents of your documents with the Encrypted PDF feature, and secure them with a password to restrict access, editing, and printing. The Digital User Signature option enables verification of your identity to recipients by adding your digital certificate to your documents.

Digital Signature PDF

ACCESSIBILITY

Canon offers solutions that go even further to provide easy access for every authorized user of the Color imageRUNNER device. The Remote Operator's Software option provides the capability to operate the device from any networked computer by emulating the device's control panel. Users with visual impairments can use the Voice Guidance option, which provides speech synthesis for programming and job confirmation during the copy process. The Braille Label option improves access to copy and print functions by adding transparent labels to hard keys on the device.
