bizhub 600

Brilliance in black-and-white

The essentials of imaging

Add some brilliance to

➔ Volume imaging with a brilliant difference

Your documents are important. And when you need large quantities of prints or copies, speed and quality matter.

We have a brilliant idea for you:
The new bizhub 600 from Konica Minolta.

We designed this multifunctional network device with your needs in mind. Thanks to Konica Minolta's Emperon™ print technology, you don't have to cut back on quality even when volume and speed are of prime importance.

You can rely on the results: Brilliant high-resolution black-and-white prints and copies, and of course professional finishing.

Printer, copier, scanner and fax (from early 2006) machine:

The bizhub 600 offers the communication and networking capabilities that large departments, agencies, and organisations require in today's global community.

Brilliant!

bizhub 600

→ Communicative features

Speed, convenience, flexibility. Busy enterprises require dependable solutions to their imaging and communications requirements.

The new bizhub 600 is a versatile black-and-white multifunctional device with unprecedented performance capabilities. Large-scale mailings, brochures and high volume printed matter: The bizhub 600 can do it all.

Its features are designed to simplify operations and increase productivity in large and busy departments. For a start, advanced network printing and scanning means that every authorised employee can access the bizhub 600 from their desktop PC. And all aspects of the system's status can be checked online.

The bizhub 600 has many answers for you. Here are just a few of the ways in which it can improve your productivity and efficiency.

your business

- **Multifunctional:**
You don't need separate printers, copiers, fax (from early 2006) machines, or scanning devices. It's all here in one compact unit, allowing for a greater utilisation of your network resources. Using features such as scan-to-eMail – the sharing and distribution of information has never been easier. Thanks to the large memory capacity, multiple jobs can be pre-programmed and managed simultaneously. In addition, the optional hard disk turns the bizhub 600 into an effective document server and archiving system.
- **Speed:**
Swiftness is the name of the game in today's business world. Big print runs require fast processing and undisturbed usage. The bizhub 600 prints and copies up to 60 A4 pages and up to 35 A3 pages per minute. To maximise productivity, paper and toner can be refilled on the fly, allowing for a smooth and continuous workflow and high up-times.

Brilliant communication solutions

- **High volume:**
If you require large print runs, then the bizhub 600 is an ideal solution. It comes equipped with an automatic 100-sheet document feeder that scans up to 75 originals per minute. The large paper supply of up to 7,600 sheets (with 4,000 sheet LCC option fitted) suits its high output capacity, and the bizhub 600 is robust too.
- **High quality results:**
Thanks to Simitri™, Konica Minolta's innovative extra fine polymerised toner, you get the best black-and-white prints and copies possible. Halftone definition and solid fills are better than ever.

■ From business cards to booklets:
The bizhub 600 can process paper ranging from A6 to A3+ in size (max. 314 x 458mm), and from 50g/m² to 200g/m² in weight, you can produce countless types of printed documents necessary for your line of business.

■ Automatic online finishing options include offsetting, stapling, punching, three different folding functions, and complete booklet production.

A brilliant idea for **brilliant results**

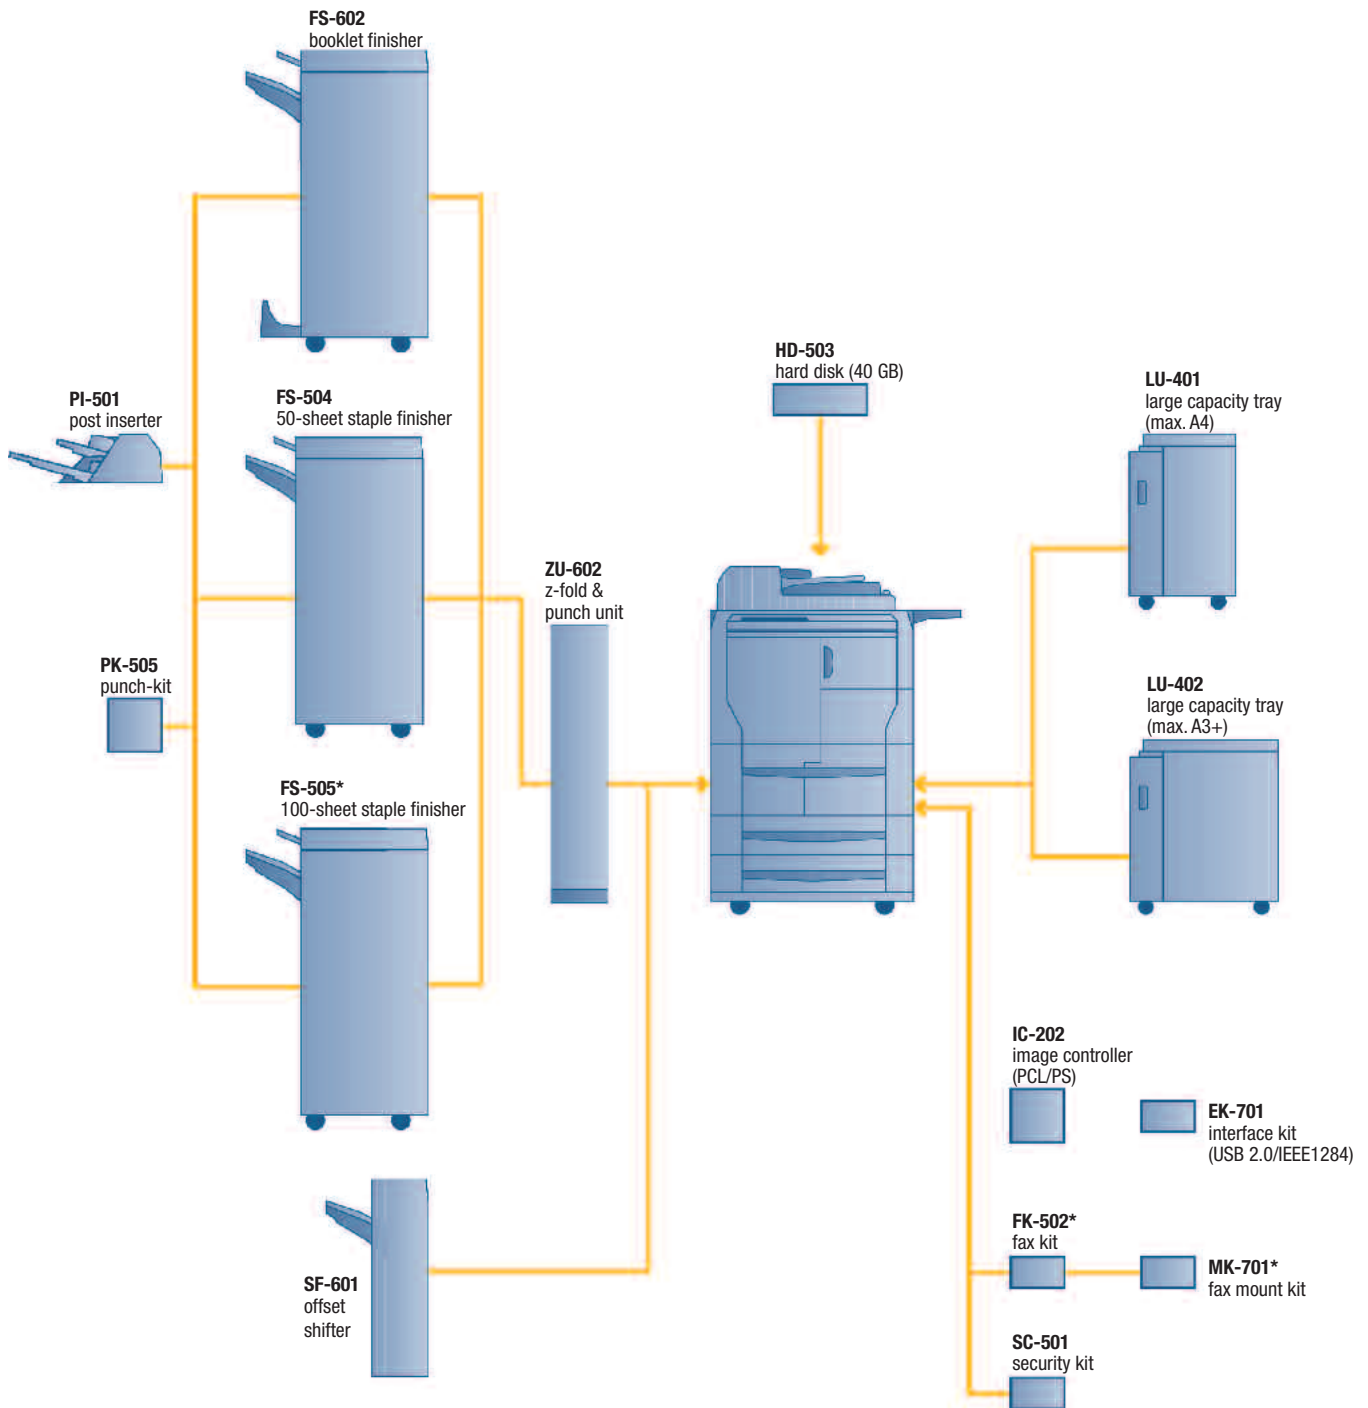

Quality that convinces

User-friendly, cost-effective, and fast. The bizhub 600 combines many features you and your place of business need.

It is an ideal high-performance document production system and versatile communications tool designed to the highest quality standards. Its proven reliability, superb black-and-white imaging, virtually limitless finishing flexibility and network capabilities mean that the bizhub 600 could be the start of a brilliant future.
