

KONICA MINOLTA

The essentials of imaging

Compact & smart
**for clever
communication**

The new bizhub C203

bizhub c203 

➔ **Compact and smart for clever communication**

With the bizhub C203, Konica Minolta offers the perfect small multifunctional for the colour and b/w imaging needs of your office. Extremely compact yet highly flexible, this entry-level A3 colour device combines innovative technology and comprehensive functionality with advanced applications. A special highlight is its complete modularity which allows the bizhub C203 to be customised into almost any tailor-made communication solution a modern company is looking for.

The communication concept

- visible information about status, processing and warnings via InfoLine:
 - paper level status per tray
 - receiving data, processing and toner replenishment status
- space saving:
 - compact build and small footprint
- intuitive operation via high resolution colour display and touchscreen:
 - display can be tilted and turned to remove glare and assist access
 - enlarge screen mode for easy reading and keystroke entry
- comprehensive scanning:
 - scan-to-eMail, FTP, SMB and Box plus TWAIN scan
 - high speed scanning of up to 70 originals per minute
 - choice of scan formats include Multipage PDF, Encrypted PDF, Compact PDF, JPEG, TIFF and XPS
- unique box functionality facilitates the storing, archiving and sharing of scanned, printed, copied and fax documents for reprinting and repeat sending:
 - 1,000 boxes for up to 3,000 documents or 9,000 pages
 - user boxes can be protected by password or user authentication (personal, public or group)
 - PageScope Box Operator allows the direct accessing and downloading of the stored data from the PC
 - multi-file preview enables fast searches via thumbnails

→ Workflow options

➔ **Advanced technology at the core**

Designing the bizhub C203, Konica Minolta put the focus on innovative technology to improve performance, productivity and reliability.

Powerful Emperon™ controller

- the Emperon™ print controller provides powerful performance with both PCL6c and PostScript 3 as standard
- Windows, Mac, UNIX, Linux and Citrix support
- easy setting thanks to unified drivers with intuitive GUIs
- support of ICC profiles
- Windows Vista support - includes the easy installation via DPWS (Device Profile for Web Services) as well as direct scanning and printing of XPS files

Complete productivity

- an advanced dual-beam laser unit ensures both precision and speed
- automatic duplexing as standard
 - A3+FB support
 - 256 gsm support
- possibility to continue printing in black and white even when the colour consumables are depleted
- auto-colour recognition, auto paper selection, auto paper rotation and auto zoom

Simitri HD® toner

- Simitri HD® polymerised toner enables second to none print quality with tiny, uniformly shaped particles
- oil-less fixing with lower fusing temperature
 - low gloss surface enables handwriting on any document with a water-based pen
 - or place a stamp or adhesive note on the printed paper
 - unparalleled colour fade resistance
 - higher media flexibility
 - better folding durability

→ Impressive media flexibility

The bizhub C203 is impressively flexible with a wealth of modular finishing choices. Its genius finishing capabilities help increase user creativity and make the bizhub C203 the perfect device for professional written communication.

Versatile printing and finishing

- one-shot production of centre-stapled booklets (optional)
- finishing options include corner stapling, side stapling, four hole punching, printing to mailbins and, for less complex requirements, a job separator tray to separate, e.g. prints from faxes
- enhanced media flexibility:
 - 256 gsm from all trays
 - 256 gsm automatic duplexing
 - 271 gsm via bypass
 - feed A3+FB media up to 311 mm x 457 mm
 - banner media up to 1,200 mm x 297 mm for display materials or project plans (not available via Mac)
 - Poster mode - 16 A3 sheets to create giant displays via the PCL driver only
- paper input capacity
 - 1,150 sheets standard/3,650 sheets max

➔ Complete office efficiency

Including access security by authentication, the bizhub C203 offers a comprehensive range of security features and is certified to ISO15408 EAL3.

Essential security

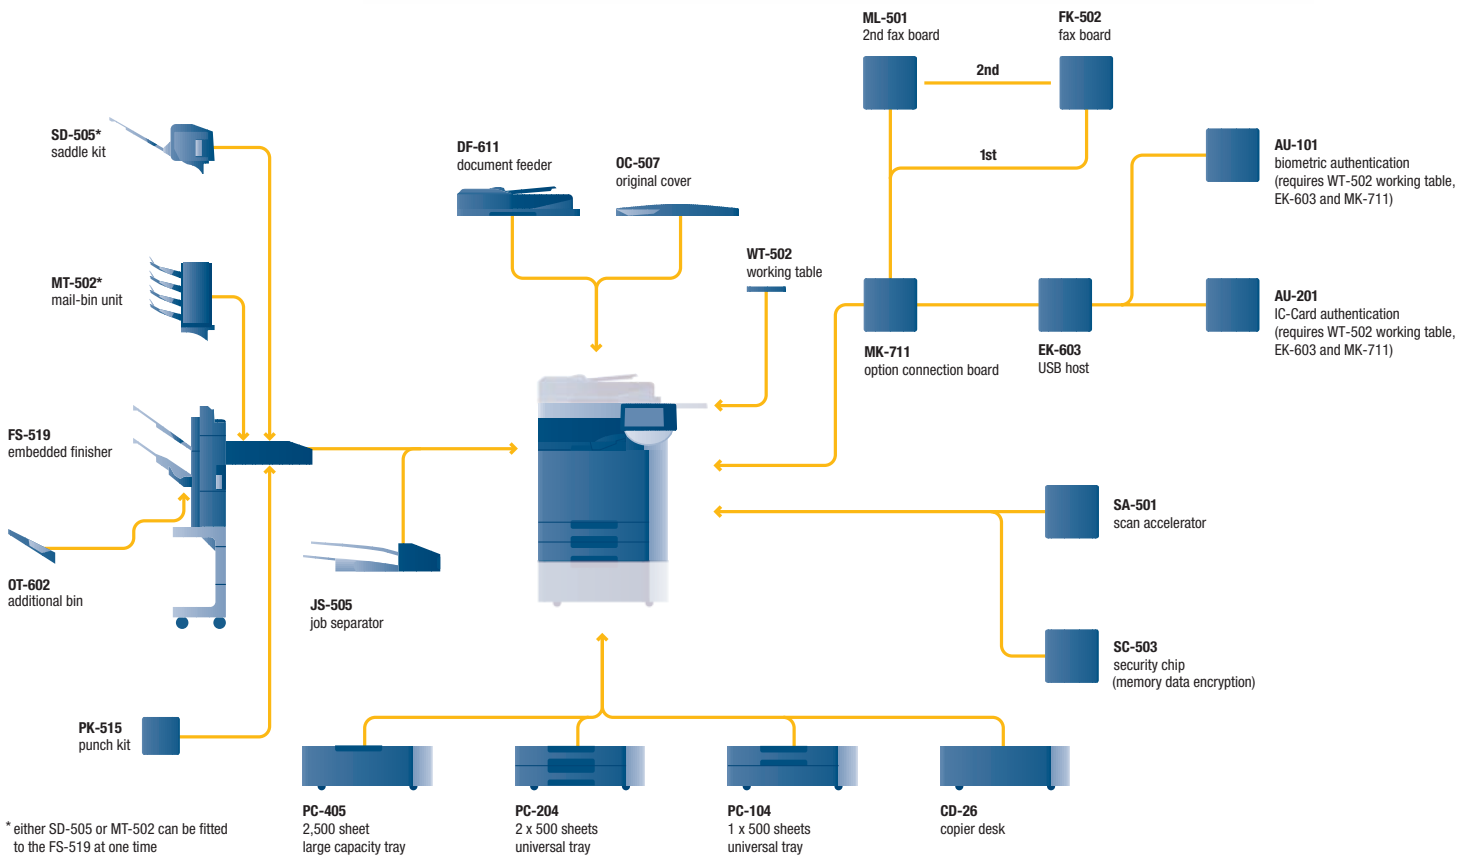

- biometric authentication option
 - pre-registered users simply place their finger into the cradle for efficient and convenient access to specified features
 - users no longer need to remember passwords
- IC-Card reader
 - Contactless MIFARE and LEGIC IC-Card reader for alternative user authentication
- PDF encryption prevents unauthorised tampering with PDF files. A password can be set to open, print or edit the file.
- with secure printing, confidential documents are only released to print via a password
- encryption is also available to make data storage on the bizhub C203's internal hard drive secure
- extended security functionality
 - full support of IPsec, S/MIME eMail encryption and AES-256 Bit encrypted printing.

➔ Versatile functionality

- USB direct scan and direct print functionality
 - scan originals directly on to a USB stick
 - print documents directly from a USB stick (without opening via native software)
- Advanced faxing
 - Digital fax and Digital store with forward to eMail, save-to-box and save to PC
 - IP Fax allows sending of faxes in colour to other bizhub devices on the intranet
 - Internet fax enables the sending and receiving of fax data such as eMail attachments
 - a conventional fax kit option can be connected for the transmission and receipt of paper originals
