COLOUR MULTIFUNCTIONALS
FOR A3 FORMAT

**FOCUSED ON
BRILLIANT
COLOUR QUALITY.**

 **KYOCERA**
Document Solutions

A COLOURFUL DEPARTMENTAL.

Imagine highly advanced, reliable, multifunctional colour devices that portray the results of your hard work in stunning resolution with brilliant vividness and astounding sharpness. Packed with the latest technology and able to complete high-capacity jobs effortlessly, the new TASKalfa range of MFPs produce some of the best-quality colour prints available on the market, taking your work to a whole new level.

COLOUR BRILLIANCE FROM AN INTUITIVE MASTER

Built around superfine toner technology that offers an increased colour gamut, these high-resolution TASKalfa devices will astound you with their sharp, vivid results and wider range of colours. Add to this the evenly reflected light thanks to improved homogenous toner coating, and we're confident our printouts will make a seriously positive impression. Yet there's more to these devices than image alone.

Behind the extremely intuitive interface, they support oversized paper and duplex printing, extended paper weight and have a reduced warm-up time. With high print resolution, various paper

feeders and finishing options that deliver fast continuous printing and high-volume results, the TASKalfa 6052ci series opens the door to a whole new range of in-house production possibilities.

Output, scanning and finishing speeds won't keep you waiting and wasting valuable time, while on the other hand, the superior energy efficiency of TASKalfa devices means you don't have to worry about your environmental footprint either. Add to this less downtime and less waste (thanks to our unique long-life components), and you'll really have all-round peace of mind.

- > FIERY CONTROLLER* FOR HIGHEST PRODUCTIVITY AND COLOUR QUALITY.
- > TIME TO FIRST COPY 4.4 SECONDS IN COLOUR (TASKalfa 6052ci).
- > UP TO 4 GB RAM, 8 GB SSD + 320 GB HDD MEMORY AND STORAGE.
- > SELECTABLE ONE-PATH DUPLEX SCANNING AND REVERSING DOCUMENT PROCESSOR.
- > COMPREHENSIVE SUPPORT FOR ALL STATE-OF-THE-ART MOBILE COMMUNICATIONS.
- > SECURITY-ORIENTED*: DATA SECURITY KIT, SUPPORT FOR INTEGRATED ID-CARD AUTHENTICATION WITH MULTIPLE-CARD TECHNOLOGIES.
- > LONG-LIFE COMPONENTS PROVIDE EXCEPTIONAL EFFICIENCY AND RELIABILITY, AND LESS WASTE.

* OPTIONAL

ARE YOU IN THE GRAPHICS BUSINESS? SO ARE WE.

The new TASKalfa range offers flexible usability for any professional copy or graphics business. As well as dealing with paper weights between 52 and 300g/m² and extended A6R to SRA3 (320 x 450 mm) paper size support. You can also print colour strips or crop marks on SRA3 resulting in a borderless A3 format. If you'd like to carry out light production jobs, oversize printing allows you to easily produce your own material, such as high-quality A4 brochures.

TASKalfa devices are also extremely user friendly. Every operation can be conducted from the newly designed 9-inch touch-screen panel with its tiltable, adjustable screen and fewer buttons, plus it has smartphone-style swipe functionality for even easier use – no training needed!

PRODUCT HIGHLIGHT

A large, intuitive, colour touch panel with intuitive controls offers easy and quick access to all print, copy, scan and fax functions.

- > CUSTOMISABLE HOME MENU SCREEN.
- > USER-FRIENDLY DESIGN.
- > ADJUSTABLE AND TILTABLE SCREEN.

BRILLIANT IN-HOUSE PRINTING THANKS TO INNOVATIVE TONER TECHNOLOGY.

If you're looking to print your own high-quality material such as brochures, the new range of TASKalfa colour multifunctionals with true 1,200 x 1,200 dpi 2 bit (equivalent of 4,800 x 1,200 dpi) print resolution are perfect for all light production tasks.

New toner technology has seriously opened up the available colour gamut (portion of colour space that can be printed), meaning you get far more colours and far superior Cyan/Blue –

and that's with averagely less toner consumption. The professional image quality you've been looking for is now at your fingertips.

And that's not all. An improved and more homogenous/thinner toner coating and improved fuser mean light is more equally reflected from the printed sheet, leading to amazingly vivid and sharp results. And all this at high speed too, with colour printouts up to 55 ppm.

ECONOMY

- > Amorphous silicon (aSi) drums with a lifetime of 600,000 prints are still unique in the class of mid-speed A3 colour MFPs.
- > High reliability means less downtime and increased savings.

ENVIRONMENT

- > Uses as little energy as possible.
- > Energy is only used when needed.
- > Renowned long-life components save resources.

USABILITY

- > User-friendly, customisable home screen with simple and intuitive menu.
- > Enhanced functionality and usability thanks to improved driver.
- > Extended mobile-device support: Mopria, Airprint, NFC, Wi-Fi Direct.

DON'T TAKE UNNECESSARY RISKS.

SECURITY IS KEY AND WE HAVE THE ANSWER

You never know when your data might end up where it shouldn't, so TASKalfa devices offer SSD and HDD encryption as standard. And if this isn't enough, it's also possible to install KYOCERA's optional Data Security Kit, which ensures no data is left on the hard disk once you've finished printing, copying or scanning.

An optional card authentication function that prevents unauthorised data access is also available and seriously worth considering. This ensures only the user can collect the documents they send to print.

CONNECTING YOUR DEVICE WITH YOUR WORKFLOW

Thanks to HyPAS™, the open software development platform from KYOCERA, you can easily integrate your TASKalfa device into your existing business workflow. This can all be done via the intuitive 9-inch control panel, where you can set up your

device to work in line with specific daily business applications such as Document Management Systems or Enterprise Resource Planning (ERP). Once ready, it'll run seamlessly in the background, leaving you to get on with your work.

TAKING YOUR MFP TO THE NEXT LEVEL.

A WIDE RANGE OF PAPER-HANDLING OPTIONS

For high-volume jobs, additional paper trays can increase the paper capacity of your TASKalfa device up to 7,150 sheets, meaning hours on end of non-stop printing if required. Plus you have the choice of two extra document processors and two finishers – one of which comes with an optional booklet unit.

And for all your internal light-production needs, the series supports a wide range of paper sizes and formats from A6 up to SRA3 which, combined with superior image quality, can be used to print colour graphics – complete with crop marks – onto SRA3 paper, allowing the accurate trimming of full-bleed edge-to-edge A3 printouts.

DOCUMENT PROCESSOR DP-7100
One-way document processor that automatically reverses double-sided documents.

7 BINS MAILBOX SORTER MT-730
Ideal for large departments, separates different users' output into 7 trays.

4000-SHEET FINISHER DF-7110
Particularly suited for large outputs. With standard stapling and optional punching function.

1000-SHEET FINISHER DF-7120
Supports various formats from B5E to A3. With standard stapling and optional punching function.

BF-730
Booklet and tri-folding unit.

- CARD AUTHENTICATION**
The card authentication function not only optimally protects sensitive data, but also allows personalised use of the device.
- ONE-PATH DUPLEX DOCUMENT PROCESSOR DP-7110**
with a capacity of 270 sheets, scans double-sided originals in one path.
- PF-7100 PAPER FEEDER**
2x 500 sheets, ideal for paper sizes between A6 and SRA3 (320 x 450 mm).
- SPACE-SAVING INNER FINISHER DF-7100**
500-sheet capacity, stapling up to 50 sheets A4 and A3 at 3 positions.

2X 1,500-SHEET PAPER FEEDER PF-7110
Supports A4, B5 and letter formats.

2X 500-SHEET PAPER FEEDER PF-7100
Ideal for paper sizes between A6 and SRA3 (320 x 450 mm).

3,000-SHEET PAPER FEEDER PF-7120
Ideal for large print runs in A4.
