

High-speed performance, superior color

This versatile, cost-effective system delivers outstanding productivity and quality for a wide variety of color and black & white workflows

The Right Choice

Engineered to provide outstanding speed and image quality, the LANIER® LD365C/LD375C is a complete solution for fast-paced offices and select high-volume environments, such as centralized reprographics departments. This powerful system delivers the advanced performance you need to handle any document-related task quickly and efficiently.

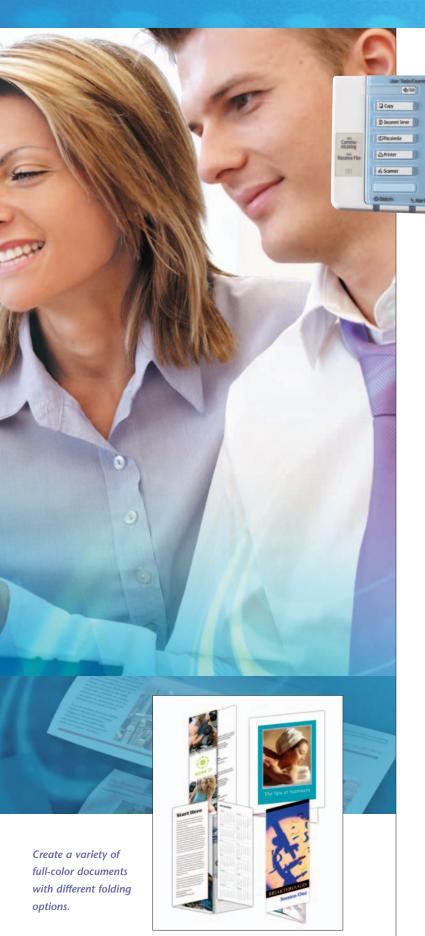

It has the capacity and reliability to consolidate color volume to a single, cost-effective system. It also offers the flexible finishing, versatile paper handling and the impressive color quality you need to eliminate outsourcing and minimize total cost of ownership (TCO).

Proven Productivity

Staying competitive means doing more work in less time with accuracy and reliability. Trust the Lanier LD365C/LD375C to provide exactly what demanding users need.

- Reduce turnaround time with fast output. The LD365C delivers 60 color and 65 black & white pages per minute and the LD375C achieves speeds up to 70 color and 75 black & white pages per minute.
 Both offer duplexing at 100% of rated speed.
- Accelerate productivity with one-pass duplex scanning. This not only reduces scan time, it minimizes wear and tear on sensitive originals.
- Navigate to the features you need in just a few quick selections.
 The large full-color WVGA control panel is the same intuitive
 LCD touch-screen available on all Lanier MFPs, so you can upgrade the fleet without retraining users.
- Meet tight deadlines and complete quick-turn jobs with one of the shortest warm-up times and fastest first copy times of any high-speed color device in its class.
- Optimize efficiency with the ability to reload paper without interrupting the current job. Total paper capacity with all options is an incredible 7,400 sheets.

The intuitive, full-color touch-screen makes it easy to find exactly what you need.

High-End Finishing

Extend the possibilities of document production with a variety of paper handling accessories and professional-grade finishing options.

- Experiment with new formats. The Multi-Fold Unit offers six folding options, including Half-Fold, Double Parallel Fold and Gate-Fold.
- Create full-color output on a wide range of paper grades.
 The system accepts up to 140 lb. Index (253 g/m²) through the Paper Trays and up to 110 lb. Cover (300 g/m²) through the Bypass Tray.
- Improve uptime with the optional Large Capacity Tray. This 2,000-sheet accessory holds paper sizes up to 12" x 18" and weights up to 110 lb. Cover (300 g/m²).
- Distribute high-quality finished documents with stapling, hole punching, ring binding or saddle-stitching, depending on your needs.

Reduce Operating Costs

In addition to its best-in-class affordability, the Lanier LD365C/LD375C delivers the speed and versatility organizations need to keep operating expenses low.

- Perform a wide variety of color and finishing tasks in-house, eliminating the need to outsource complex jobs to expensive third-party providers.
- Consolidate jobs from multiple laser or inkjet printers to cut supply costs.
- Print marketing collateral, forms, training packets and other documents on demand instead of managing large volumes of preprinted inventory.
- Empower creative teams to produce high-quality layouts, proofs and mock-ups with exceptional speed and quality.
- Improve workflow in copy shops and print-for-pay environments by adding high-quality color capacity and finishing capabilities that are ideal for quick-turn jobs.

Equipped to Optimize Productivity

Enhance Performance and Quality While Reducing Cost

Optional Cover Interposers

Feed pre-printed sheets from one or two sources for front and back covers.

Optional 3,000-Sheet Finishers

Choose from 50- or 100-sheet stapling and 2- or 3-hole punching.

Optional 2,000-Sheet Booklet Finisher

Fold and staple documents to produce finished booklets and 2- or 3-hole punching.

50-Sheet Finisher

This finisher lets you select multi-position stapling for documents up to 50 pages.

Optional FD5000 Multi-Fold Unit

Execute several different folds to create a variety of finished documents.

Optional RB5000 Ring Bind Unit

Punch holes and insert plastic rings to produce ready-to-distribute books.

BK5010e Booklet Maker

Saddle stitch up to 30 sheets to create 120-page booklets.

GBC StreamPunch™ III

Create professional-quality bound books with in-line punching in a variety of patterns.

Versatile Paper Sources

Standard paper sources include the Tandem 2 \times 1,100-Sheet Paper Tray, two 550-Sheet Paper Trays and Bypass Tray for a total of 3,400 sheets. With additional options shown here, this system can hold up to 7,400 sheets.

Reduce Total Cost Of Ownership

Impressive Image Quality

The high-powered color print engine in the Lanier LD365C/LD375C creates high-resolution images that capture your customers' attention.

- Maximize edge definition, coverage consistency and color density with breakthrough PxP oil-free toner from Lanier. Smaller particles and a lower melting point combine to create smooth blends and solid fills.
- Help visually impaired users with a special printer driver function that adjusts color levels to enhance readability.

Optimize Color Output

Configure the LD365C/LD375C with the Fiery E-7200 print controller for professional-grade print and color control.

- Boost onboard power and expedite complex processing tasks with a 2.0GHz processor.
- Get all the advantages of Fiery color manipulation without giving up familiar Lanier functionality for other tasks. Even if you choose the optional Fiery controller, you can keep user-friendly Lanier menus for a full host of scanning capabilities.
- Streamline workflow with convenient drag-and-drop functionality. Just point
 and click to move files from the desktop to a print queue, prepare files for
 output or balance workflow among multiple connected devices.
- Maximize job-to-job efficiency with the Command WorkStation utility. Switch effortlessly from managing jobs to configuring the controller's settings.
- Bridge the gap between platforms. The Fiery controller provides identical functionality in both Windows and Mac environments.

Enhance Personal Productivity

The App2Me® solution revolutionizes document management, enabling users to create customized workflows and execute them anywhere they go.

- Download widgets to any client (desktop PC, laptop or Smartphone) and use them on any Lanier MFP enabled with App2Me.
- Enjoy maximum convenience at each App2Me-enabled MFP, which is completely personalized no matter where you go.
- Simplify complex workflows. Widgets can be created to combine, distribute, edit and create documents, as well as perform many other tasks automatically.
- Maximize productivity. App2Me improves efficiency through widgets that control a virtually endless array of MFP, software or Web service-driven workflows
- Create specialized widgets for almost any need, in any framework across
 multiple platforms that App2Me supports, such as Google Desktop™
 and more.

Expect vivid, intense colors with a powerful 1200 dpi print engine and new PxP oil-free toner.

Expedite full-color job processing with the incredibly fast EFI Fiery E-7200 print controller.

With App2Me, you can download time-saving and workflow-enhancing widgets and use them at any Lanier MFP enabled with the App2Me solution.

Multifunction Performance

The LD365C/LD375C integrates a diverse range of capabilities into a relatively small footprint, enabling you to reach new heights of productivity and efficiency.

- Manage virtually any document-related task with this incredibly versatile, high-speed system. Choose from advanced printing, copying, faxing and scanning functions.
- Reduce network traffic with high-compression PDFs, especially when handling large full-color files.

Protect Every Document

Advanced security features ensure that sensitive documents and the system itself remain safe from multiple threats.

- Restrict system access to authorized users. The system supports external (Windows, LDAP) and internal (basic and user code) authentication.
- Protect business critical information with the DataOverwriteSecurity System (DOSS) option. It automatically overwrites the hard drive after copy, scan, fax and print jobs. You can also use the HDD Encryption option to protect data, even if the hard drive is removed or stolen.

Environmental Advantages

Many organizations are "going green" by setting goals for sustainability. The LD365C/LD375C helps support these efforts.

- Minimize total energy consumption. The LD365C/LD375C uses significantly less electricity without compromising speed, productivity or functionality. It is also designed to use less energy during sleep mode.
- Maintain outstanding image quality. With its lower melting point, PxP toner requires less energy, yet delivers the high-quality results you expect.

Scan both sides of any original without feeding it twice using single-pass duplex scanning.

Choose the Ring Bind Unit to create ready-to-distribute training packets, reports and other lengthy documents.

The Total Green Office Solution

Lanier continues its long-standing commitment to developing office solutions with environmentally friendly and superior energy- and supply-saving features, without compromising productivity.
