SHARP

MX-M753U/N
MX-M623U/N

Digital Multifunctional System

The Ultimate Productivity Booster—
High-Performance B/W MFPs with Colour Scanning

ENERGY STAR

| COPY | NETWORK PRINT OPTION for U models | NETWORK COLOUR SCAN OPTION for U models | SHARPDESK OPTION for U models | FAX OPTION |

For Stepped-Up B/W Performance and a Colour Scanning Edge

Superb high-resolution images, high-speed 75/62-cpm/ppm output, and a fast 150-sheet Duplex Single Pass Feeder put the copy/print performance of the MX-M753U/N and the MX-M623U/N well above and beyond that of conventional B/W solutions.

Speedy 75-opm colour network scanning—which makes it easy to convert paper-based documents into digital files for storage and distribution—and convenient network printing bring even greater function. And highly productive finishing options, including a 100-Sheet Stapler/Finisher and a handy Inserter, boost office efficiency to new highs.

Environment-friendly, easy to use, and compatible with the latest network protocols and operating systems, the MX-M753/M623U/N brings plenty of pluses to busy workplaces, including enhanced workflow through Sharp OSA (Open Systems Architecture) and greater peace of mind through Sharp's industry-leading, multi-layered security solutions.

New Design Brings Style and Ease of Use

Designed for both easy viewing and navigation, the MX-M753/M623U/N sports a user-friendly control panel that lends polish and style to the workplace. An 8.5-inch, W-VGA, touch-screen colour LCD provides thumbnail displays and data file previews, and a retractable QWERTY keyboard option brings added convenience. New easy-grip handles reflect a universal design that allows the paper drawers to be grasped from the top as well as the bottom for easy loading.
PRODUCTIVE

Super-Efficient Output

`COPY PRINT`

The MX-M753/M623U/N delivers a fast output of **75/62 cpm/ppm***, enabling the production of large-volume documents that include memory-intensive graphics in less time. The first copy comes out in just **3.5/4.0 seconds** to save valuable time when performing multiple short-run jobs. What's more, the short, straight paper path minimises misfeeds, saving you paper and toner costs.

* A4 (8 1/2" x 11"), long-edge feeding

75 CPM PPM   **62 CPM PPM**

MX-M753U/N   MX-M623U/N

Productive Collated Output from Memory

`COPY PRINT`

The MX-M753/M623U/N's Scan Once/Print Many function only requires a single scan of a multi-page original for copying, and the RIP Once/Print Many function only needs to download print data once from the PC for printing. The machine then automatically saves the data into memory and outputs **collated** sets of copies or printouts in the proper page order (electronic sorting), with each set **offset stacked** for easier retrieval.

Multi-page original is scanned... (or print data sent from PC)   stored on hard disk in proper page order...   ...and stacked offset

Speedy Document Feeding

`COPY`

The MX-M753/M623U/N comes standard with a highly efficient **150-sheet DSPF** (duplex single pass feeder), which **scans both pages** of two-sided documents **up to A3** (11" x 17") in size in one pass. Doing away with the reversing circuit minimises paper misfeeds and vastly improves reliability. With a scanning speed of **75 originals per minute** (opm) for both two-sided and one-sided originals, the MX-M753/M623U/N finishes even large projects quickly.

Network Tandem Function

`COPY PRINT`

When two of these MFPs are connected to the same office network, you can use both simultaneously to double copying/printing output to up to **150/124 cpm/ppm**. Large-volume jobs can be completed with ease, enabling you to meet tight deadlines.

Equivalent to 150/124 cpm/ppm

75/62 cpm/ppm   75/62 cpm/ppm

### Built-in Stackless Duplex Module

`COPY PRINT`

The MX-M753/M623U/N can make **two-sided copies and printouts** using its built-in stackless duplex module, effectively reducing paper costs as well as saving filing space. Duplex copying is even more effective when used together with the DSPF.

Advanced Finishing

`COPY PRINT`

With plenty of options available to finish the job, the MX-M753/M623U/N makes it easy to create professional-looking booklets. The **Saddle Stitch Finisher** option staples documents up to 50 sheets and can fold and staple sets of documents up to 15 sheets to make completed booklets. It also features a **bi-folding** function that folds individual pages, up to size A3, in half—eliminating the tedious task of folding pages by hand. A **Finisher** is available for jobs that require simple sorting and stapling, while another option, the **100-Sheet Stapler/Finisher**, staples documents up to 100 sheets. For truly professional results, an optional **Inserter** adds pre-printed covers or inserts up to 256 g/m2 to documents. And a **Punch Module** option punches holes in documents for easy filing.

Saddle stitch finisher   100-sheet stapler/finisher   50-sheet stapler/finisher

A Variety of Job Finishing Options

Saddle stitching   Stapling   Cover insertion   Hole punching

Large Paper Capacity

`COPY PRINT`

For high-volume work, the MX-M753/M623U/N can accommodate an optional 3,500-sheet large-capacity tray for a total capacity of **6,600 sheets**. When a tray runs out of paper, the **Auto Tray Switching** function automatically switches to another paper tray filled with the same size paper, allowing you to do extra-large volume jobs without worry.

Job Build for Large-Volume Scanning

`COPY`

The MX-M753/M623U/N easily handles large-volume copy jobs exceeding the DSPF's 150-sheet[1] capacity. For example, a 370-sheet original can be scanned as batches of 150 + 150 + 70 sheets and automatically stored on the MX-M753/M623U/N's hard disk[2]. Users can then print the entire document in a single run.

[1]: A4 (8 1/2" x 11"), 80 g/m2

[2]: The number of pages that can be stored for the Job Build function depends on the machine's HDD capacity and other conditions.

3

NETWORK-READY

▌Supports Most Office Environments   `PRINT`

- The MX-M753/M623U/N works as a network printer* with the latest and most commonly used operating systems and network protocols, including **IPv6**, and even in mixed OS environments. You get fast, powerful network printing via the 1000Base-T **Gigabit Ethernet** standard.

- The MX-M753/M623U/N supports **PCL5e** and **PCL6** printer languages.* For compatibility with **PostScript 3**, the MX-PKX1 PS3 Expansion Kit is available.

* U models require optional MX-PB13.

Windows®

Macintosh

Print

Windows Server®
SUPERB IMAGE QUALITY

▌True 1,200 x 1,200-dpi Printing   `PRINT`

The MX-M753/M623U/N's print engine provides razor-sharp 1,200-dpi printing—without sacrificing output speed—for ultra-clear image quality. Fine lines and small text come out crisper and easier to read.

600DPI   1200DPI
▌Optimum Copy Quality   `COPY`

600 x 600-dpi resolution and 256-level greyscale ensure finely detailed reproduction, while **Digital Auto Exposure Control** provides optimum copy contrast. For best results, there are seven exposure modes to choose from. Users can, for example, select Text mode for text-only originals or Photo mode for detailed, high-quality reproduction of photos and delicate halftone images.

VERSATILE

▌USB Memory Direct Print   `PRINT`

One of the two USB ports on the MX-M753/M623U/N is located at the front of the MFP beneath the control panel. It comes in handy when printing data directly from USB memory devices—an indispensable function for users who are in a hurry or who want quick machine access without a PC.

▌Versatile Paper Handling   `COPY PRINT`

The MX-M753/M623U/N accommodates a wide range of paper sizes, from A5R (5 $^1/_2$" x 8 $^1/_2$"R) to A3 (11" x 17"). And thanks to its tandem printing method, the MX-M753/M623U/N can handle heavy paper stock up to **209 g/m²**, overhead transparencies, and other types of paper, further expanding the range of printing applications.

▌Image Editing Functions   `COPY`

The MX-M753/M623U/N includes various editing functions made possible by digital technology.

- **Multi-Page Enlargement** divides an image onto separate sheets for making posters up to A0 x 2 (44" x 68") in size.

- **Photo Repeat** places multiple copies of an image onto a single sheet.

- **Mirror Image** makes a reverse image of the original.

- **XY Zoom** adjusts the horizontal and vertical ratios independently.

- **B/W Reverse** reverses the black and white of an image.

Please see specifications for a list of available convenient functions.

Various Copy/Print Applications   `COPY PRINT`

Copy & Print

- **Tab Copy/Print** can copy or print directly onto tabs on document separators and insert them into assigned positions.

- **Multi-Shot** copying and **N-up** printing

- **Pamphlet Style** copying/printing

- **Cover/transparency** insertion

Print

- **Direct Print**[1] allows **PDF**[2], **TIFF, JPEG, or XPS**[3] **files** to be printed without using the printer driver or opening applications.
  - [1]: Direct printing may not support all PDF, TIFF, JPEG, and XPS formats.
  - [2]: Direct PDF printing requires optional MX-PKX1.
  - [3]: Direct XPS printing requires optional MX-PUX1 and MX-SMX3.

- **Carbon Copy Print** mode automatically outputs multiple printouts of the same data on plain and/or coloured paper; convenient for invoices and purchase orders.

- **Form Overlay** can store office document formatting such as letterheads and overlay contents, eliminating the need for pre-printed paper.

- **Barcode font** compatibility (with optional AR-PF1 Barcode Font Kit)

Copy

- **Book Copy** is convenient for compiling copies of a book or bound originals into pamphlet format.

- **Card Shot** enables one-touch copying of both sides of a card (credit cards, ID cards, etc.) onto a single page.

- **Mixed Size Original Copy** mode automatically distinguishes documents of mixed sizes* (such as A3/B4, B4/A4, etc.) fed through the DSPF and chooses the appropriate paper.
  - * Some restrictions apply when combining paper sizes of different format series.

A3 Colour Network Scanning `SCAN`

The MX-M753/M623U/N works as a **full-colour network scanner**[1]. Converting any type of paper-based document, up to A3 (11" x 17") in size, into an editable digital file is as easy as making a copy. The MX-M753/M623U/N supports TIFF, PDF, encrypted PDF, compact PDF*[2], JPEG, and XPS (XML Paper Specification) file formats. And the MX-M753/M623U/N also offers **Auto Colour Selection** for choosing the right mode to scan originals, **Suppress Background (Auto)**, and **Blank Page Skip** functions.
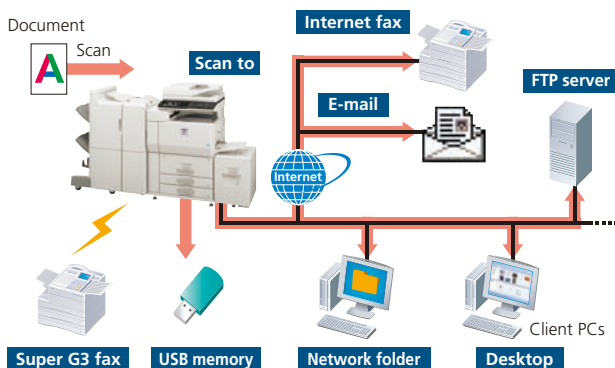

*1: U models require optional MX-NSX1.   *2: Requires optional MX-EBX3.

Multiple Distribution of Scanned Files `SCAN FAX`

With the touch of a few buttons, you can choose different ways to distribute your scanned documents. **Scan to E-mail** sends documents as an e-mail attachment. **Scan to FTP Server** scans documents directly to an FTP server for storage. **Scan to Desktop** sends scanned documents directly to your PC desktop. **Scan to Network Folder (SMB)** sends files to a shared folder on a networked Windows PC. **Scan to USB Memory** scans documents directly to USB memory devices. And **Scan to Fax** enables conventional faxing or Internet faxing.

Note: U models require optional MX-NSX1 for all scan functions except for scan to USB memory.

Document
Internet fax

Scan to
E-mail
FTP server
Internet
Client PCs
Super G3 fax   **USB memory**   **Network folder**   **Desktop**

LDAP Support `SCAN FAX`

Built-in LDAP (lightweight directory access protocol) support eliminates the need to enter or register full addresses. By entering the first few letters of the recipient's name, the MX-M753/M623U/N displays a list of possible matches from your company's LDAP server. Selected addresses can be stored to the MX-M753/M623U/N's address book.

High-Speed Faxing `FAX`

The optional MX-FXX2 Fax Expansion Kit turns the MX-M753/M623U/N into a 33.6 Kbps **Super G3 fax**. Using JBIG compression technology, the MX-M753/M623U/N can send an A4 (8 $^1/_2$" x 11") size page in under 3 seconds*. Use the 150-sheet DSPF to further boost faxing efficiency. And, because **Quick On-Line Transmission** can start dialling and transmitting as soon as the first page is scanned into memory, you can send documents in **much less time**.

* Based on Sharp's standard chart with approximately 700 characters (A4 or 8 $^1/_2$" x 11" long-edge feeding) at standard resolution.

Automated Fax Finishing `FAX`

The MX-M753/M623U/N eliminates the need to copy and staple received faxes by hand. Simply use the Fax Output setting on the LCD control panel to designate the number of copies. With finishing options installed, the MX-M753/M623U/N will even automatically staple these documents for you.

Output settings for received faxes

A   A   A B

PC-Fax/PC-Internet Fax `FAX`

Directly send a document created on your PC to a recipient's fax machine via a phone line or the Internet without printing to paper. Save time and paper costs while retaining original document quality.

Note: PC-Internet Fax requires optional MX-FWX1; PC-Fax requires MX-FXX2.

Internet Fax `FAX`

Economically send and receive faxes to and from other ITU-T T-37-compliant Internet fax machines via the Internet. The MX-M753/M623U/N supports **Direct SMTP**; outgoing Internet faxes do not go through your mail server, making transmission faster and cheaper.

Note: Requires optional MX-FWX1.

Paperless Faxing with Inbound Routing `FAX`

Paperless faxing with inbound routing lets you check incoming faxes via e-mail before printing. It can also forward incoming faxes to an FTP server, a network folder (SMB), or a PC desktop. Files can be saved in either PDF or TIFF (single/multi).

Note: Requires optional MX-FXX2 or MX-FWX1.

Other Key Features

Scan & Fax

- **One-touch auto dial keys** register up to **1,000** numbers for frequently used destinations
- **Broadcast transmission** to up to 500 destinations
- **Programme keys** (up to 48 keys) are available to set up frequently used transmissions for instant recall
- **Easy text entry*** lets you enter addresses, file names, subject titles, or messages from the LCD control panel
  * Only addresses can be entered for faxing.
- **Mixed size original scanning** automatically distinguishes documents of mixed sizes fed through the DSPF

Fax

- **Duplex transmission/reception** sends and prints out two-sided documents
- **Flash memory backup** ensures documents remain safely backed up in memory, even in the event of a power failure
- **Rotation transmission/reception** rotates incoming and outgoing faxes to match the direction of the printing paper
- **Fax destination confirmation** allows users to reconfirm fax numbers before sending to prevent transmission errors
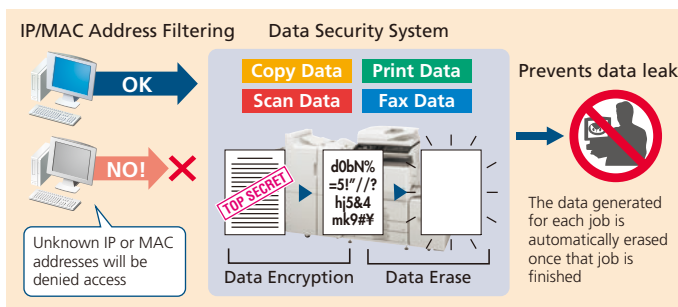

SECURITY

Industry-Leading Multi-Layered Security

With multiple levels of network and data security to cover a wide range of security needs, Sharp's industry-leading security solutions protect your business assets and bring peace of mind. The MX-M753/M623U/N safeguards sensitive data with powerful, enhanced security functions that eliminate the worry of unauthorised use and guarantee greater protection for your confidential information.

Data Security Kit

Digital copier/printers or MFPs can retain hundreds of pages of confidential information from previous jobs on their hard disks or internal memory. To safeguard this information from unauthorised access, the optional **Data Security Kit** automatically **encrypts and erases** the data after each job is complete as well as data stored both on the hard disk and in the address book.

IP/MAC Address Filtering — OK — NO! — Unknown IP or MAC addresses will be denied access

Data Security System — Copy Data — Print Data — Scan Data — Fax Data — TOP SECRET — d0bN%=5!"//?hj5&4mk9#¥ — Data Encryption — Data Erase

Prevents data leak — The data generated for each job is automatically erased once that job is finished
Secure Network Access

The MX-M753/M623U/N's **IP/MAC address filtering** function provides highly secure operation by restricting access to these MFPs on your office network. Only PCs that have either their IP address or MAC (media access control) address registered are allowed to use the MX-M753/M623U/N. Attempted access from an unknown IP or MAC address will be denied, preventing unauthorised use. These MFPs also support the **IEEE 802.1X** standard for port-based network access control, which blocks all access from unauthorised devices.

Encrypted PDF with Password Protection

To prevent unauthorised viewing of confidential image data, the MX-M753/M623U/N enables users to password protect and encrypt PDF data. By setting a password when scanning, users can transmit a PDF over the network in encrypted format. Then, after transmission, viewers will only gain access to the encrypted PDF after successfully re-entering the chosen password.

MX-M753/M623U/N encrypts the scanned data — ***** — d0bN%=?mk9#¥ — Requests password entry for viewing the file

Document Control Function

Document Control prevents unauthorised copying, scanning, faxing, and filing of confidential documents. This is how it works: the MX-M753/M623U/N embeds copy prevention data onto a document when it is first copied or printed. It will then detect this data the next time someone tries to make a copy of the document. Any unauthorised attempts to copy a Document Controlled-document will simply be cancelled or result in the output of a blank page.

Note: Requires optional Data Security Kit. May not work for certain types of documents or paper.

Example: Unauthorised copying

ABC — Confidential document with copy prevention data — Unauthorised attempt to make a copy — Results in a blank page
Secure Sockets Layer

SSL (secure sockets layer) enables the encryption of data communications to prevent data leakage through the network when printing via IPP, browsing secure Web pages (HTTPS), or communicating via e-mail (SMTP and POP3) or FTP (FTPS).

User Authentication

The MX-M753/M623U/N prevents unauthorised use by requiring **passwords** for machine access. This safeguarded solution can register up to 1,000 users in **three access levels** as Administrator, User, or Guest and can designate to which function user authentication applies. The MX-M753/M623U/N can, for example, be set to allow copying by all users while restricting colour scanning to designated users. And the MX-M753/M623U/N works with an **external Active Directory server** to extend user authentication to multiple MFPs and a greater number of users.

User authentication

IPv6 and IPsec Support

The MX-M753/M623U/N supports **IPv6**, the next-generation Internet protocol. An obligatory part of IPv6 is **IPsec** (IP Security), a set of protocols for securing Internet protocol (IP) communications. IPsec encrypts and authenticates traffic between specified parties, giving IPsec-compatible products an extremely high level of network security.
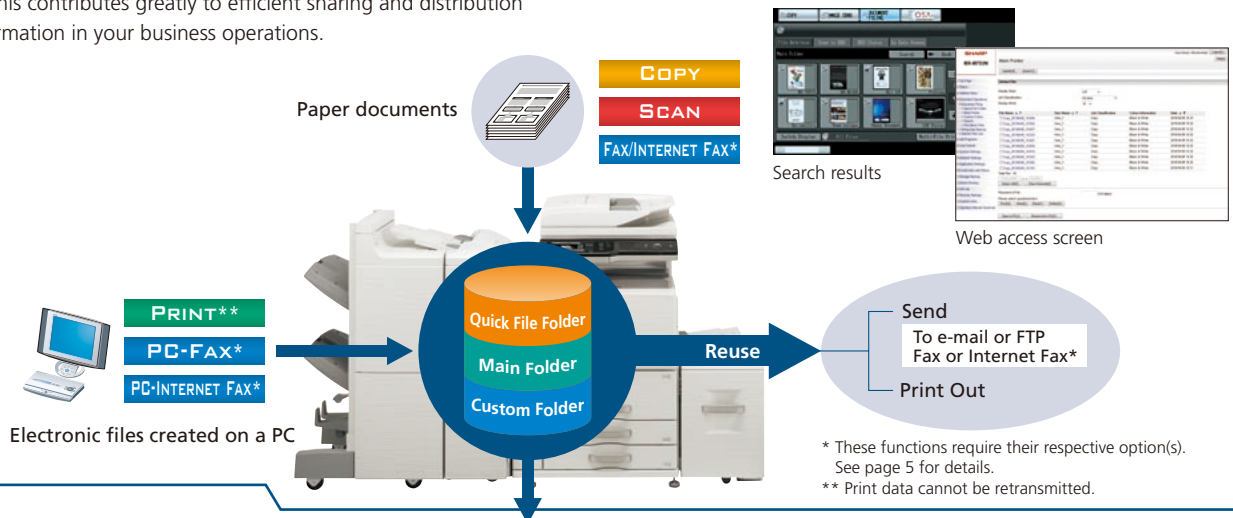

DOCUMENT MANAGEMENT

▌Document Management on the Hard Disk

You can save processed job data in designated folders on the MX-M753/M623U/N's built-in hard disk, making it easy to instantly recall saved documents or jobs for printing and sending at a later time. This contributes greatly to efficient sharing and distribution of information in your business operations.

▌Easy Access to Stored Files

Documents stored on the hard disk can be quickly and easily searched and accessed from the control panel's LCD via thumbnail displays and file previews or through a Web browser.

Advanced Filing Function

Up to **20,000 pages** or 3,000 files*[1] that have been copied, printed, scanned, or faxed*[2] can be stored by job on the hard disk in up to 1,000 folders with customised names and locations. Enhanced security features require users to enter a 5- to 8-digit password to access secure folders, protecting your sensitive data. Storage options include:

• Main Folder – You can store processed files by user name in the main public folder and share them across the workgroup. Any file name and a PIN code can be assigned to each saved job.

• Custom Folder - Up to 1,000 private folders (named as desired) can be created within the Custom Folder. When saving a file in a private folder, any file name can be assigned. A PIN code can be applied to both private folders and files.

*1: Measured using Sharp's standard chart (A4 with 6% coverage, B/W). The Quick File Folder shares the HDD with the Job Build function; up to 12GB of data storage is available when using both functions. The storage capacity will be less for colour pages.
*2: For fax and Internet fax jobs, only transmitted data (not received faxes) can be saved in the Document Filing function.

Sharpdesk for Total Document Management

Sharpdesk is an original Sharp application that provides integrated desktop management of documents in over **200 file formats**, including scanned paper-based documents and those created with popular applications such as Word. It allows you to organise, edit, search, and distribute your documents, all with simple drag-and-drop operation.

• Intuitive desktop display features **thumbnail** viewing
• Sharpdesk Imaging provides **annotation** tools for paper-free proofreading
• Sharpdesk **Composer** combines different types of files into a single document
• **Optical character recognition** converts documents into editable text files
• **Output zone** distributes files to e-mail, printers, and other applications
• **File search** allows searching by file name, keyword, or thumbnail

DEVICE MANAGEMENT

Integrated Device Management

The MX-M753/M623U/N allows for easy programming of complex settings and makes it possible for a system administrator to manage multiple devices from a single location. The result is minimum time and effort and maximum work efficiency.

Web-Based System Settings

Administrators can configure system settings such as address book control, document filing management, and user control (accounting) from either over the network or from the control panel of the MX-M753/M623U/N.

Web-based device management

User Control

The MX-M753/M623U/N has capabilities to **restrict machine access and usage**. Easily manage overall running costs by setting access rules through a Web browser to limit or restrict functions, such as the printing out or copying of large-volume documents.

• Authority Groups – Use of each function can be restricted individually.

• User control and account – Up to 1,000 password-protected user accounts can be created for customised access. Accounts can be set up for individuals, groups, or departments, in conjunction with the authority group setting. Maximum limits for printing or copying pages can be set for each account.

Remote Diagnosis

The MX-M753/M623U/N can be monitored remotely through a Web browser. In the event of a problem, such as a low amount of toner, an alert is displayed on the Web page. And, the E-Mail Status and Alert function generates e-mail messages to notify the administrator when action or maintenance is required.

Network Utility Software

• **Printer Administration Utility** makes printer networks easier to manage by allowing administrators to customise monitored items and view settings such as the IP address directly from their PC through a standard Web browser.

• If the MX-M753/M623U/N is low on paper or toner, the **Printer Status Monitor** will alert you in the form of easy-to-understand graphics, allowing you to avoid problems before they arise.

Device Cloning

Machine settings can be copied conveniently to another MX-M753/M623U/N via a Web browser in XML format, making it easy to clone machines in a networked environment. With Device Cloning, the administrator no longer needs to set up individual machines one by one, thereby making his/her job a lot easier.

Web-based device cloning
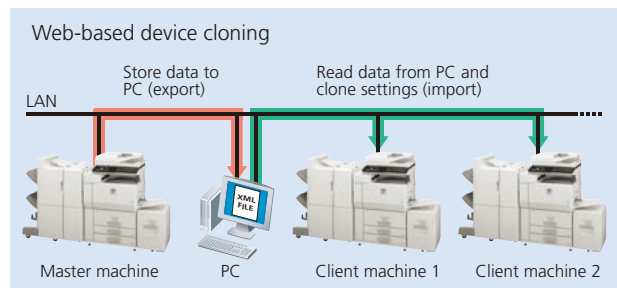

Remote Operation

With the MX-M753/M623U/N's new Remote Operation function, the same control panel screen found on the MFP can be displayed on the screen of a remote, office-networked PC, allowing the MFP to be operated via that PC*. This function can, for example, enable the administrator to guide an MFP user in need of help through necessary procedures. It also allows users, such as the physically challenged, who might have difficulty accessing the MFP control panel, to operate the MFP remotely, via the PC.

* Requires VNC application.
ENVIRONMENT- & USER-FRIENDLY

ENVIRONMENTALLY ADVANCED

Environmentally Conscious Design

• With a standby power consumption of less than **1W** in night-time fax reception mode, the MX-M753/M623U/N leads the industry in energy savings for MFPs.

• In **support of the RoHS directive**, which restricts the use of hazardous substances, Sharp has fully eliminated harmful lead and chromium in all MX-M753/M623U/N parts and materials.

• Conforming to the **ENERGY STAR®** programme, an international system identifying energy-efficient products, the MX-M753/M623U/N has two levels of **energy-saving modes** to reduce or shut off electricity after a period of inactivity. And pressing the **power save key** after a job is finished immediately puts the MX-M753/M623U/N into auto power shut-off mode for further cutbacks on running costs.

Power save key

EASY OPERATION

8.5-Inch Touch-Screen LCD

The MX-M753/M623U/N's logically designed control panel features a wide, clear, W-VGA-resolution touch-screen LCD with easy-to-follow guidance. For example, when adjusting staple/sort finishing or making pamphlets, the LCD displays step-by-step instructions to guide you through the necessary procedures. Pushing the **Home** button, even in the middle of an operation, takes you back to the Start screen. And you can quickly access the most frequently used functions and settings by programming them into **My Menu**.

Home screen   Staple/sort finishing

Thumbnail Display and Previews

Making the search for files easier and more convenient than ever, thumbnails and up-close previews of Document Filing data files, as well as conventional file names, can be displayed on the MX-M753/M623U/N's LCD control panel. And to help users decide which documents to print out, the LCD can also display thumbnails and previews of incoming faxes and Internet faxes. The MX-M753/M623U/N even prevents errors in copying, scanning, or saving documents to its hard disk by showing previews of those jobs on the LCD before actually executing them, making it easy to confirm finishing options, scan settings, and other such items.
Thumbnails   Preview

Saddle stitching (preview)   2-in-1 copying (preview)

Job Status Screen

Whether printing or copying, the control panel displays a list of all jobs, showing you at a glance the jobs in progress and the position of your job in the queue. And, with a few quick touches of the LCD screen, the **Priority Printing** function lets you easily **change the job queue order** or delete jobs that are no longer needed.

Retractable Keyboard (Option)

A **full-size retractable QWERTY keyboard** slides out from beneath the control panel to make text input fast and easy: convenient for typing things like e-mail addresses and messages, as well as passwords for user authentication.

Sharp OSA (Open Systems Architecture)

The MX-M753/M623U/N supports the Sharp OSA* development platform. This innovative technology allows users to interact with critical business and network applications and/or external account software right from the LCD control panel, offering a new realm of control and convenience. And since Sharp OSA utilises industry-standard network protocols, such as XML and SOAP, the MX-M753/M623U/N can easily integrate with document management systems, enterprise resource planning software, workflow applications, and more.
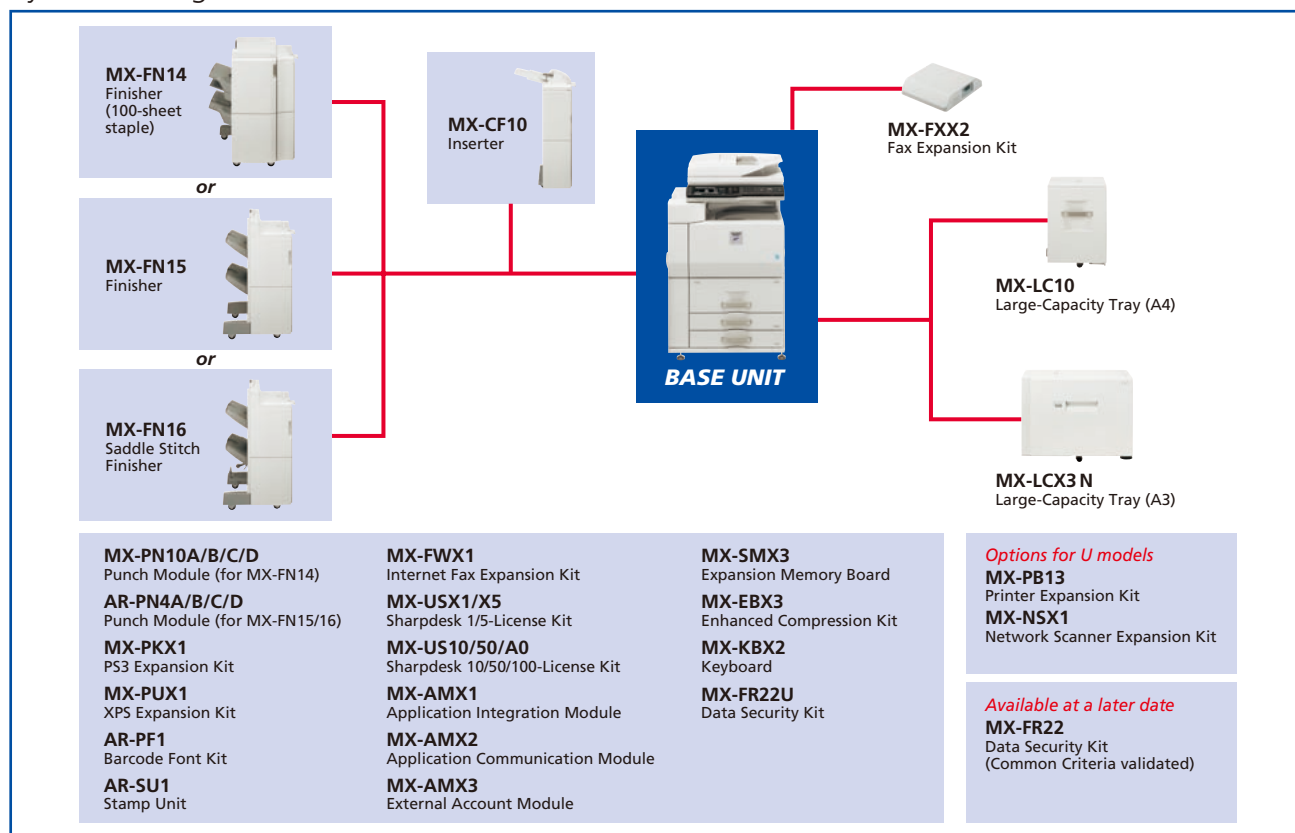

* Requires optional MX-AMX2 and/or MX-AMX3.

Note: The screen shown above is just a sample. Screen layouts and user interfaces can be specifically designed to accommodate customised application programmes.

	Offset/staple	A3 to B5 (11" x 17" to 8 ¹/₂" x 11"R)
Max. paper capacity (80 g/m²)	Upper tray	1,500 sheets (A4, 8 ¹/₂" x 11")
	Lower tray	2,500 sheets (A4, 8 ¹/₂" x 11")
	Middle tray*	250 sheets (A4, 8 ¹/₂" x 11")
Max. stapling capacity (80 g/m²)		100 sheets (A4 or smaller), 50 sheets (A4R, B4 or larger, or mixed)
Staple position		3 locations (front, rear, or both)

* Non-offset tray

MX-FN15 Finisher

Paper size	Non offset	A3 to A5R (11" x 17" to 5 ¹/₂" x 8 ¹/₂"R)
	Offset/staple	A3 to B5 (11" x 17" to 8 ¹/₂" x 11"R)
Max. paper capacity (80 g/m²)	Upper tray	2,000 sheets (A4, 8 ¹/₂" x 11")
	Lower tray	2,000 sheets (A4, 8 ¹/₂" x 11")
Max. stapling capacity (80 g/m²)		50 sheets (A4 or smaller), 30 sheets (A4, B4 or larger, or mixed)
Staple position		3 locations (front, rear, or both)

MX-FN16 Saddle Stitch Finisher

Paper size	Non offset	A3 to A5R (11" x 17" to 5 ¹/₂" x 8 ¹/₂"R)
	Offset/staple	A3 to B5 (11" x 17" to 8 ¹/₂" x 11"R)
Max. paper capacity (80 g/m²)	Upper tray	2,000 sheets (A4, 8 ¹/₂" x 11")
	Lower tray	2,000 sheets (A4, 8 ¹/₂" x 11")
	Saddle stitch tray	10 sets (11–15 sheets), 20 sets (6–10 sheets), 25 sets (1–5 sheets)
Max. stapling capacity (80 g/m²)		50 sheets (A4 or smaller), 30 sheets (A4, B4 or larger, or mixed)
Staple position		3 locations (front, rear, or both)

Punch Modules

Model name		MX-PN10A	MX-PN10B	MX-PN10C	MX-PN10D
For the MX-FN14		MX-PN10A	MX-PN10B	MX-PN10C	MX-PN10D
For the MX-FN15/16		AR-PN4A	AR-PN4B	AR-PN4C	AR-PN4D
Number of holes		2	3	4	4 (wide)
Paper weight		56 to 256 g/m² *			

* Guaranteed punchable weight is 56 to 128 g/m².

MX-CF10 Inserter

Paper size	A3 to A5R* (11" x 17" to 5 ¹/₂" x 8 ¹/₂"R)
Paper weight	60 to 256 g/m²
Paper capacity	100 sheets (80 g/m²)

* Excluding A5 size

MX-LC10 Large-Capacity Tray

Paper size	A4 (8 ¹/₂" x 11"), B5
Paper capacity	3,500 sheets (80 g/m²)

MX-LCX3 N Large-Capacity Tray

Paper size	A3 to B5 (11" x 17" to 8 ¹/₂" x 11")
Paper capacity	3,000 sheets (80 g/m²)

MX-FXX2 Fax Expansion Kit

Compression method	MH/MR/MMR/JBIG
Communication protocol	Super G3/G3
Modem speed	33,600 bps to 2,400 bps

Sharpdesk 3.3 System Requirements

Supported OS	Windows® XP (SP2) Professional/Home Edition, Windows Vista®, Windows 7
Hard disk	Minimum requirement of operating system used plus at least 500MB to store Sharpdesk and Network Scanner Tool programmes
CPU	Pentium® or equivalent processor (Windows XP: 800 MHz 32-bit/64-bit processor; Windows Vista and Windows 7: 1 GHz 32-bit/64-bit processor)
Memory	Windows XP: 512MB RAM; Windows Vista and Windows 7: 1GB RAM/2GB RAM (Windows 7 64-bit)
Monitor	Windows XP: SVGA display; Windows Vista and Windows 7: Direct X9 support with 128MB video RAM

SPECIFICATIONS (tentative)

General

Type	Console
Engine speed	Max. 75/62 cpm/ppm (A4, 8 $\frac{1}{2}$" x 11", long-edge feeding)
Paper size	Max. A3 (11" x 17"), min. A5R (5 $\frac{1}{2}$" x 8 $\frac{1}{2}$"R)
Paper capacity (80 g/m²)	Standard: 3,100 sheets (1,200-sheet tray, 800-sheet tray, two 500-sheet trays, and 100-sheet multi-bypass tray) Maximum: 6,600 sheets
Paper weight	Tray 1/2: 60 g/m² to 105 g/m² (16 to 28 lbs bond) Tray 3/4: 60 g/m² to 209 g/m² (16 lbs bond to 110 lbs index) Large-capacity tray: 60 g/m² to 105 g/m² (16 to 28 lbs bond) Multi-bypass tray: 56 g/m² to 209 g/m² (13 lbs bond to 110 lbs index)
Warm-up time*[1]	Less than 30 sec.
Memory	Copier memory: 512MB Printer memory: Standard 1GB, max. 2GB 80GB HDD*[2]
Power requirements	Rated local AC voltage ±10%, 50/60 Hz
Power consumption (max.)	1.84 kW (220 to 240V), 1.80 kW (100 to 127V)
Dimensions (W x D x H)	728 x 683 x 1,213 mm (28 $\frac{21}{32}$" x 26 $\frac{57}{64}$" x 47 $\frac{3}{4}$")
Weight (approx.)	190 kg (419 lbs)
Features	Job build, document filing, user authentication (1,000 accounts), toner save mode, pre-heat/auto power shut-off modes, preview, thumbnail view*[3]

Copier

|	
Original paper size	Max. A3 (11" x 17")
First copy time*[4]	3.5/4.0 sec.
Continuous copy	Max. 999 copies
Resolution	Scan: 600 x 600 dpi, 600 x 400 dpi, 600 x 300 dpi Print: 600 x 600 dpi
Gradation	Scan: 256 levels Print: 2 levels
Zoom range	25 to 400% (25 to 200% using DSPF) in 1% increments
Preset copy ratios	Metric: 10 ratios (5R/5E), inch: 8 ratios (4R/4E)
Features	Auto paper selection (mixed/random size feeding), auto magnification selection, paper type selection, auto tray switching, rotation copy, electronic sorting, network tandem copy, book copy, margin shift, dual page copy, multi-shot (4-in-1, 2-in-1), cover/transparency/tab page insertion, 2-sided copy orientation change, XY zoom, B/W reverse, mirror image, duplex copy, job reservation, job programme, photo repeat, irregular original/paper size input, stamps (date, page number, text, stamp), multi-page enlargement, tab copy, centering, proof copy, watermarks, sharpness, card shot, edge/centre/side erase, pamphlet copy, original count

Network Colour Scanner (optional MX-NSX1 required for U models)

Scan method	Push scan (via control panel), pull scan (TWAIN-compliant application)
Resolution	Push scan: 100, 200, 300, 400, 600 dpi Pull scan: 75, 100, 150, 200, 300, 400, 600 dpi 50 to 9,600 dpi via user setting
File formats	TIFF, PDF, encrypted PDF, JPEG (colour only), XPS*[5], compact PDF*[6]
Scanner utility	Sharpdesk
Scan destinations	Scan to e-mail/desktop/FTP server/network folder (SMB)/USB memory
Features	Internet fax*[7] (supports direct SMTP), PC-Internet fax transmission*[7], mixed size original scanning, LDAP support, 1,000 one-touch dials, 500 group dials, direct entry (address, subject, message), 48 job programmes, broadcasting, long original scanning (max. 1,000 mm)*[8], card shot, edge/centre/side erase, original count

Document Filing

Document filing capacity	Main and custom folders: 38GB, 20,000 pages*[9] or 3,000 files Quick file folder: 12GB, 10,000 pages*[9] or 1,000 files
Stored jobs*[10]	Copy, print, scan, fax transmission
Storage folders	Quick file folder, main folder, custom folder (max. 1,000 folders)
Confidential storage	Password protection

Network Printer (optional MX-PB13 required for U models)

Resolution	1,200 x 1,200 dpi, 600 x 600 dpi
Interface	USB 2.0 10Base-T/100Base-TX/1000Base-T
Supported OS*[11]	Windows Server® 2003/2008, Windows® 2000/XP, Windows Vista®, Windows 7, Mac OS 9.0 to 9.2.2, Mac OS X 10.2.8, 10.3.9, 10.4.11, 10.5 to 10.5.8, 10.6 to 10.6.2
Network protocols*[11]	TCP/IP (IPv4, IPv6), IPX/SPX (NetWare), NetBEUI, EtherTalk (AppleTalk)
Printing protocols	LPR, Raw TCP (port 9100), POP3 (e-mail printing), HTTP, Novell Printserver application with NDS and Bindery, FTP for downloading print files, EtherTalk printing, IPP
PDL (emulation)	Standard: PCL 6/5e emulation Option*[12]: PS3 emulation, XPS
Available fonts	80 fonts for PCL, 136 fonts for PS3 emulation
Features*[10] *[13]	Network tandem print, RIP Once/Print Many, job retention (print hold, sample print, confidential print), direct PDF/TIFF/JPEG/XPS printing, carbon copy print, duplex print, font/form download, offset output, printer administration utility and status monitor, pamphlet style, IP/MAC address filtering, port/protocol management, binding edge, N-up (2/4/6/8/9/16), paper/output tray selection, cover/transparency insertion, fit to page, watermarks, form overlay, auto configuration, barcode font compatibility, tab print, secure network communications (SSL and IPsec [LPD]), margin shift

Facsimile (optional MX-FXX2 required)

Compression method	MH/MR/MMR/JBIG
Communication protocol	Super G3/G3
Transmission time	Less than 3 seconds*[14]
Modem speed	33,600 bps to 2,400 bps with automatic fallback
Transmission resolution	From Standard (203.2 x 97.8 dpi) to Ultra Fine (406.4 x 391 dpi)
Recording width	A3 to A5 (11" x 17" to 5 $\frac{1}{2}$" x 8 $\frac{1}{2}$")
Memory	8MB flash memory
Grey scale levels	Equivalent to 256 levels
Features*[10]	Duplex transmission/reception, quick on-line transmission, error correction mode, 1,000 one-touch dials, 500 group dials, LDAP support, 48 job programmes, broadcasting number registration, F-Code compatibility (confidential, relay broadcast), polling, memory transmission/reception, auto reduction (transmission/reception), rotation transmission/reception, print actual size, 2-in-1 transmission, long original transmission (max. 1,000 mm), PC-Fax transmission, timer transmission, activity report, anti-junk fax, dual page scan, mixed size original scanning, inbound routing to e-mail/FTP server/ network folder (SMB)/PC desktop/group, original count, card shot, edge/centre/side erase

* 1 : At rated voltage, 23℃ (73.4℉). May vary depending on operating conditions and environment.
* 2 : HDD capacity depends on procurement and sourcing status.
* 3 : Thumbnails of Document Filing data files and incoming faxes.
* 4 : Long-edge feeding of A4 (8 $\frac{1}{2}$" x 11") sheets from main unit's 1st paper tray, using document glass, in Auto Exposure mode, MFP in fully ready condition.
* 5 : To view XPS files on PCs not running Windows Vista, you must have the XPS Viewer application installed.
* 6 : Optional MX-EBX3 required.   *7: Optional MX-FWX1 required.
* 8 : B/W documents only, scanned at under 400-dpi resolution. Max. 800 mm for Internet faxing or when scanning at 600 x 600-dpi resolution.
* 9 : Measured using Sharp's standard chart (A4 with 6% coverage, B/W). The Quick File Folder shares the HDD with the Job Build function; up to 12GB of data storage is available when using both functions. The storage capacity will be less for colour pages.
*10: Some features require option(s).   *11: Optional MX-PKX1 required for Mac OS and EtherTalk.
*12: PS requires optional MX-PKX1. XPS requires optional MX-PUX1 and MX-SMX3 (1GB).
*13: Some features are not available according to the printer driver used.
*14: Based on Sharp's standard chart with approx. 700 characters (A4 or 8 $\frac{1}{2}$" x 11" long-edge feeding) at standard resolution in Super G3 mode, 33,600 bps, JBIG compression.
