- > Copy, Print, Scan, Fax
- > Advanced Features
- > Customizable UI

BIG FEATURES IN A SMALL FOOTPRINT.

The amazing color and impressive features you'd expect to find on Toshiba's larger departmental MFPs are now available in a desktop model. Toshiba's e-STUDIO330AC/400AC provides the robust feature set of its full-size MFPs in a compact footprint, making this series an ideal candidate for small to mid-size workgroups. They will also lighten the load of the busiest workgroup systems. Like Toshiba's larger models, this series offers all the functions and applications you need to keep your business running smoothly – copy, print, scan, and fax, plus the same workflow-enhancing solutions.

People-pleasing performance.

We know deadlines can't wait. Your teams have contracts, presentations, and reports to produce. These machines ramp up quickly in 20 seconds (or less) and produce 35 and 42 Pages per Minute (PPM), respectively. While the 100-sheet Dual-Scan Document Feeder automatically adjusts for any skews as it scans 120 duplex Impressions per Minute (IPM). Scan Preview allows you to scan, rotate pages, or even change their order. For added efficiency, Print Around eliminates printing bottlenecks by allowing other print jobs to go around any job being held-up for a specific paper size, media type or even color toner if not available in the machine. And Limitless Job Reservation allows you to queue up multiple copy or print jobs.

Super easy to use.

The tilting 10.1" full-color, tablet-style touch screen with embedded web browser makes it easy to navigate features and functions. You may customize the user interface to your needs and simplify the menu structure to improve workflow and productivity. Cloud accessibility is built-in, simply print documents from the cloud, or scan to a folder, email or a variety of cloud-based applications. With Toshiba's Auto-Launcher, you may even scan and print from a USB quickly and easily. These machines will automatically notify you and the dealer when service or supplies are needed. And if you need any more help, you can access the manual right on the touch screen.

Paper handling that stacks up.

These machines are team players. They can accommodate heavy paper and two-sided printing. On their own, they offer 650-sheet capacity from two paper sources. If you want even more, an optional second cassette will add another 550 sheets. Still not enough? An optional base provides one or two additional 550-sheet cassettes, or an optional tandem Large Capacity Feeder (LCF) that provides 2,000 sheets instead for a maximum capacity of 3,200 sheets.

Strong and dependable.

This series is designed for minimal downtime with a maximum Monthly Copy Volume of 150,000 for color and monochrome printing, a high toner yield of 17,400 pages at five percent coverage, and periodic maintenance that can be done quickly.

True colors.

Let your output shine with proven, accurate color. Just as its larger systems, Toshiba's unique toner formulation and patented image technology enables these compact models to achieve a wider gamut of colors more accurately than found on competitive 4-color toner-based devices. Whether it's a boardroom presentation or your brand identity, the new e-STUDIO330AC/400AC will capture each color correctly in high-resolution up to 1,200 dpi. As sticklers for image quality, periodic auto-checks ensure colors remain consistent throughout long runs.

State-of-the-art security.

Whether you're protecting personal records, private data, or intellectual property, Toshiba knows security is a top priority. These machines are equipped with a 320GB Self-Encrypting Drive (SED) with Automatic Drive Invalidation and Data Overwrite capability for advanced protection. With the optional FIPS 140-2 Validated SED, the e-STUDIO330AC/400AC further attain Hardcopy Device Protection Profile (HCD-PP) certification, the latest benchmark in printer and MFP security.

Green machines.

This series not only has a compact footprint, but a compact carbon footprint. They are RoHS compliant, use recycled plastics, and have a Super Sleep (1W) Mode. They also reduce the environmental impact by being EPEAT Gold and Energy Star V 3.0 certified.

The e-STUDIO330AC/400AC Series is small enough for the desktop but big enough for the most demanding jobs with impressive features you'd expect to find on Toshiba's larger departmental MFPs.

TOSHIBA

A QUICK LOOK AT A COMPACT MACHINE.

Impressive Performance

- > 35 and 42 PPM, respectively
- 100-sheet dual-scan document feeder provides 120 duplex IPM
- > Fast, first-copy-out times at 7.2 for color and 5.7 for monochrome

Brilliant Image Quality

- High resolution up to 1,200 dpi color with 256 gradations
- Accurate color and fine detail
- Auto color calibration for consistent color across large print jobs

Broad Paper Handling

- 650-sheet standard with up to 3,200-sheet maximum capacity
- Heavy paper support through drawers and duplex up to 140-lb index
- > Support for envelopes through the drawers

Unmatched Reliability

- 150K monthly copy volume and periodic maintenance intervals
- High toner yields of K: 18.4K & CMY: 17.4K @ 5% coverage
- Service Module Design allows for efficient maintenance

Easy to Use

- 10.1" Tablet-Style, Full-Color Tilting Touchscreen Panel
- > Customizable user interface
- Embedded web browser allows third-party document solutions within front panel

Innovative Technology

- Next generation e-BRIDGE technology enables third-party solutions integration and support
- Fast Intel dual-core processor with 4GB RAM and 320GB SED
- Optional fax with iFax capability

Like our larger models, this series offers all the functions and applications you need to keep your business running smoothly – copy, print, scan, and fax, plus the same workflow-enhancing solutions, all in a compact design to fit any size workspace.
