## HIGHLIGHTS

### e-BRIDGE-Next Technology

Toshiba's e-BRIDGE Next platform enables the seamless integration of third party solutions. The MFPs are fully customisable by adding e-BRIDGE Plus applications that connect to cloud solutions or local applications. For the perfect fit, e-BRIDGE Next can even run with customised apps.

### Multi Station Print

Toshiba's serverless printing solution allows users to send print jobs from their desktop and retrieve them at up to 50 different MFPs by simply swiping their badge and authenticating at that device. Easily make last-minute changes to a print job or re-print previous jobs directly on the MFP.
